NOTICE OF PESTICIDE APPLICATION

WEED CONTROL AUGUST 24 - 28th

FUNGICIDE as needed

WEED CONTROL is applied in preparation of lawn renovation with aeration **coming in September**

What is Aeration? Lawn aeration is the secret weapon in making your lawn healthy. Aeration involves making holes in the lawn either by pushing a rod into it or by "coring" extracting a plug of soil. By aerating your lawn you provide the following benefits to your lawn and its root system:

- Oxygen gets to the roots and the soil allowing it to "breathe"
- Organic fertilizers and nutrients get access to the root system
- Water is able to better soak the soil and reach the root system
- Tight, compacted soil is loosened up allowing the root system to grow

MID SUMMER SPECIAL!
Sprinkler System Installations
systems starting at \$1600
Installation includes:
4 Zones, Rain Sensor,
Controller clock & Backflow
Additional plumbing and/or zones will be an extra charge

We want your feedback!
Is there something you would like us to address? We want to hear from you!
